We are still trying to get industry consensus. We think RJR will follow us with our proposal (English language versions of the compulsory EEC warning (front and back)). BAT are deciding on May 13. The "PM solution" is now back on their list of possibilities. Gallaher are still deciding and Rothmans are being difficult. I think that once BAT has decided we can firm up our arrangements.

ANY NEWS ON THE SUBJECT OF THE WARNING NOTICE FOR PRODUCTS SOLD IN EEC DUTY FREE? DO YOU FEEL WE ARE ANY CLOSER TO A DECISION THAN WE WERE IN MARCH?

REGARDS,

LESLIE
